

# Learner-Initiated-Style J

## Learning Foucs

The learning focus of the Learner-Initiated style is the learner's initiation, not the teacher's initiation, of the learning experience. An individual learner initiates a request to engage in this style and to design a full learning experience making all decisions, including the specific topic to investigate, planning and implementation decisions, and evaluation criteria. The student's role is to keep the teacher informed about the decisions made in the learning experience.
